

ALEX MIGUEL RODRIGUEZ FERNANDEZ

SOFTWARE ENGINEER

new york, United States | inceptumrex@gmail.com | inceptumrex.com |
<https://www.linkedin.com/in/alex-rodriguez-fernandez/>

PROFILE

Dynamic Software Engineer with 8 years of comprehensive experience in developing robust applications and optimizing user experiences. Proven expertise in Angular and React.js, coupled with a strong command of CI/CD practices to enhance deployment efficiency. Skilled in building scalable APIs and implementing effective data management strategies using SQL and GraphQL, driving significant performance improvements. Committed to leveraging collaborative methodologies and advanced testing techniques to ensure high-quality code and seamless integration across teams. Passionate about delivering innovative solutions that exceed user expectations and contribute to business success.

PROFESSIONAL EXPERIENCE

Software Developer, Bank of New York Mellon, manhattan

February 2021 — March 2025

- Collaborated closely with cross-functional backend and UI/UX design teams to streamline development processes, rapidly iterate on product features, and enhance application workflows through scalable, maintainable codebases using Angular, TypeScript, and JavaScript.
- Integrated with backend systems using RESTful APIs and Javabased platforms.
- Applied advanced monitoring and analytics using Splunk, implemented unit testing to ensure code quality, and leveraged Docker to maintain platform reliability and improve user experience (UX).
- Built unit-tested frontend components and backend services using Junit, Mockito and implemented testing pipelines.
- Worked cross-functionally with product, design, and backend teams to iterate on user-driven features.
- Collaborated cross-functionally with ops and tech teams to implement scalable deployment strategies, leveraging SQL, MySQL Developer and Oracle database for data operations and Spring Boot for backend service deployment.
- Supported user feedback analysis and iterative feature enhancements using Jira for task management, Git for version control, and CI/CD pipelines to deploy updates efficiently and continuously.

Full Stack Developer, Inceptum Rex, remote

January 2018 — January 2022

- Developed dynamic front-end interfaces with React, Next.js and TypeScript, enhancing user experience across multiple projects.
- Built and online gym website with Next.js allowing subscription management with routing protection.
- Built and maintained scalable GraphQL APIs, improving data fetching efficiency and reducing over-fetching by 40%.
- Optimized PostgreSQL schemas and queries, ensuring data integrity and reducing slow-running queries by up to 60%.

EDUCATION

Computer Science

September 2029

Medgar Evers, Brooklyn

Developed and implemented interactive web elements using HTML, CSS, and JavaScript. Designed and optimized user interfaces for accessibility and responsiveness. Created and Designed Web pages.

Certification

February 2020 — February 2021

Year Up United, manhattan

Developed and implemented interactive web elements using HTML, CSS, and JavaScript. Designed and optimized user interfaces for accessibility and responsiveness. Integrated APIs and databases to enhance web functionality. Conducted usability testing to improve website performance and user experience.

TECHNICAL SKILLS

angular	react.js	CI/CD	Cloud Services
Docker	Java	Javascript	Typescript
SQL	GraphQL	Jenkins	Version Control
GitHub	GitLab	Oauth2	Unit Testing
bash	Python	Git	Next.js
Node.js	Vite		

INTERNSHIPS

Application Support Intern, Bank of New York Mellon, manhattan **August 2020 — February 2021**

- Built front-end features for transaction based requirements ensuring stakeholder requirements.
- Developed and enhanced frontend features using Angular6, Angular15 for responsive and modular UI components.

COURSES

Version Control, Meta	May 2025
Programming with JavaScript, Meta	April 2025
Introduction to Front-End Development , Meta	September 2022
The Bits and Bytes of Computer Networking, Google	January 2021
Introduction to Back-End Development , Meta	January 2021
Technical Support Fundamentals, Google	November 2020
